LYNCHBURG VA 24501-3431

Chet,

Having reached our topping out milestone, it is very evident that we selected the right fabrication/ erection for this project. In light of all of the hardships, I don't see how we could have improved anything that was under our control. Your calm demeanor, patience and leadership were very much appreciated on this difficult project.

I am sorry that other commitments kept you from attending the Topping Out, but I understand.

I am truly looking forward to working together on "the next one".

Thank-you again for your support,

A handwritten signature in blue ink, appearing to read "Charlie Whitney".

Charlie Whitney
